

Technology Stack

Date	29 SEPTEMBER 2026
Team ID	SWTID-2026-3838
Project Name	LegalEase: AI-Powered Legal Document Generator
Maximum Marks	2 Marks

Define Your Technology Stack:

Identify the programming languages, frameworks, databases, front-end tools, back-end tools, and APIs that you will use to build your solution. A well-chosen technology stack ensures that your application is scalable, maintainable, and aligned with your project requirements.

Fill out the table below to detail the specific technologies chosen for each component of your architecture and provide a brief justification for your choice.

Technology Stack Details

S.No	Architecture Component / Layer	Technology Chosen	Justification / Purpose
1	Frontend/ Client-Side	Streamlit , CSS	Streamlit provides a simple and interactive user interface for LegalEase, while CSS is used for custom styling, layout, responsive design, document preview and an improved user experience.
2	Backend / Server-Side	Python, FastAPI	Python handles the application logic and document generation. FastAPI provides API endpoints for communication between the frontend and backend and supports fast request processing.

3	Database / Data Storage	MongoDB	MongoDB will store user account and authentication-related data along with metadata of generated documents. It will allow users to securely access and retrieve their previously created legal documents from their account.
4	Cloud / Hosting / Deployment	Streamlit Cloud / Cloud Hosting	LegalEase will be deployed as a web application so users can access it through a browser. Cloud hosting will provide online accessibility and allow the application to be used without running it locally.
5	Version Control & CI/CD	GitHub / Git	Git and GitHub can be used to maintain source code, track changes, manage versions and support team collaboration.
6	Third-Party APIs / Other Tools	Google Gemini API	Gemini API provides AI-powered legal document generation. If the Gemini API is unavailable, the application uses built-in document templates as a fallback.
